Croma-Pharma supports Light for the World

Croma donates viscoelastics to blind people in Africa

(Leobendorf, May 15th, 2020) Especially in difficult times, we must not forget that crises hit the poorest of the poor twice as hard. We are therefore delighted that Croma can continue to support the international aid organization Light for the World in 2020. A total of 500,000 people have already been supported as part of the collaboration that has existed for 20 years. Today Light for the World again received 15,000 viscoelastics, which are urgently needed for cataract operations (cataracts) in the poorest regions of Africa. Managing Director Martin Schöllner presented the donation on behalf of Croma to Sabine Prenn - Managing Director of Light for the World Austria. We are happy to be able to contribute to the sustainable improvement of the quality of life of many people.

About Croma

Founded in 1976, Croma-Pharma GmbH (Croma) is an Austrian family-owned company that specialises in the industrial production of hyaluronic acid syringes for the fields of medical aesthetics, ophthalmology and orthopaedics. Besides the HA Filler from the own production site as the main product, Croma markets PDO lifting threads, a Platelet Rich Plasma (PRP) system in cooperation with Arthrex as well as the skincare systems Universkin™ and elure™. Croma currently runs 12 international sales companies and distributes its products in more than 70 countries.

About Licht für die Welt

Licht für die Welt is an international organization based in Austria that is committed to creating an inclusive society that is open to everyone and leaves no one behind. The organization is committed to barrier-free ophthalmic care and supports inclusive education and framework conditions for a self-determined life so that people with disabilities can participate in society on an equal footing. Organized as an independent, non-profit organization, Licht für die Welt maintains country offices in Ethiopia, Burkina Faso, Mozambique and South Sudan.
